+201120677108 | yasmientareq@gmail.com | Portfolio: [Jasmien Tareq](#) | New Nozha, Cairo

Objective

Motivated front-end developer skilled in HTML, CSS, JavaScript, Angular and React. Experienced in building responsive, minimalistic Internet Applications with a focus on accessibility and user experience. Proficient in Git and GitHub, pursuing a degree in Technology and Development.

Education

Zagazig University

October, 2021 - June, 2025

Bachelor of Technology and Development - Department of Soil and Water Technology

Work Experience

Code Expert | *Outlier AI*

November, 2024 – Present

- Specialized in JavaScript to review, debug, and optimize coding tasks, enhancing AI model capabilities.
- Provided detailed feedback on JavaScript-based solutions to improve accuracy and performance.
- Ensured best practices in JavaScript development, contributing to high-quality AI model training.

Labeller | *MEEG*

June, 2023 – October, 2023

- Collaborated with team members, enhancing communication and teamwork skills.
- Managed tasks and technical issues with strong computer proficiency, improving operational efficiency.
- Thrived in a fast-paced environment, balancing deadlines and maintaining attention to detail.

Courses

Front-End Developer | *DEPI - Digital Egypt Pioneers Initiative*

April, 2024 – October, 2024

- Designed and developed web interfaces using HTML, CSS, and JavaScript, ensuring responsive and visually appealing pages and learned the principles of UI / UX Design.
- Utilized Bootstrap for streamlined UI components, maintaining a consistent look across devices.
- Built dynamic, interactive interfaces using AngularJS, focusing on component-based architecture, state management, and web services.
- Led team of 5 support efforts while developing unit tests and adhering to software development best practices.

The Ultimate React Course | Udemy | 84 hours

November, 2024

- React fundamentals, Advanced components, Next.js for server-side rendering.
- Redux for state management, and hands-on projects.

Skills

Computer Skills: MS Package, Google Workspace, Presentation and Design tools.

Language Skills: Arabic (Native), English (Excellent).

Programming Language Skills:

- HTML & CSS – Skilled in creating responsive, accessible web designs.
- JavaScript – Experienced in writing clean, efficient code for front-end development.
- React – Proficient in building dynamic interfaces using React.
- TypeScript – Knowledgeable in adding type safety to React projects.
- Git – Comfortable with version control and collaborative workflows.
- APIs – Skilled in integrating RESTful APIs in web applications.
- Responsive Design – Able to create layouts that adapt across devices.
- Front-end Libraries – Familiar with Redux for state management and styled-components for styling.

Projects

Nex-Buy | E-commerce Web App

October, 2024

Technologies: Angular, Bootstrap, REST API

- Designed a responsive layout for **5 device types** with Bootstrap.
- Achieved a **20% reduction in bugs** through unit and end-to-end testing.

Task Management App

August, 2024

Technologies: Angular, TypeScript, Bootstrap

- Developed a task management app enabling users to manage **100+ tasks** with JWT authentication for **500+ users** and a **40% reduction in load time**.
- Leveraged Angular components for a scalable, single-page interface, incorporating local storage for offline access and improving user satisfaction by **25%** through usability testing with **20 participants**.
