Summary

Motivated front-end developer skilled in HTML, CSS, JavaScript, and Angular. Experienced in building responsive, minimalistic Internet Applications with a focus on accessibility and user experience. Proficient in Git and GitHub, pursuing a degree in Technology and Development.

Education

Zagazig University   **October, 2021 - June, 2025**
Bachelor of Technology and Development

Coursework

Web Development & Performance Optimization | Responsive Web Design | Advanced JavaScript & Frameworks | UI/UX Design Principles | Web Accessibility Standards | Computer Science Essentials.

Experience & Internship

Front-End Developer Intern | *DEPI - Digital Egypt Pioneers Initiative*   **April, 2024 – October 2024**

- Designed and developed web interfaces using HTML, CSS, and JavaScript, ensuring responsive and visually appealing pages.
- Utilized Bootstrap for streamlined UI components, maintaining a consistent look across devices.
- Built dynamic, interactive interfaces using AngularJS, focusing on component-based architecture, state management, and web services.
- Led team of 5 support efforts while developing unit tests and adhering to software development best practices.
- Gained experience in debugging cross-browser compatibility and optimizing performance.

Labeller | *MEEG*   **June, 2023 – October 2023**

- Collaborated with team members, enhancing communication and teamwork skills.
- Managed tasks and technical issues with strong computer proficiency, improving operational efficiency.
- Thrived in a fast-paced environment, balancing deadlines and maintaining attention to detail.

Projects

E-commerce Web App
Technologies: Angular, Bootstrap, REST API

- Developed an e-commerce platform with **50+ products**, resulting in a **30% increase in user engagement** and a **15% boost in conversions**.
- Designed a responsive layout for **5 device types** with Bootstrap.
- Achieved a **20% reduction in bugs** through unit and end-to-end testing.

Task Management App
Technologies: Angular, TypeScript, Bootstrap

- Developed a task management app enabling users to manage **100+ tasks** with JWT authentication for **500+ users** and a **40% reduction in load time**.
- Leveraged Angular components for a scalable, single-page interface, incorporating local storage for offline access and improving user satisfaction by **25%** through usability testing with **20 participants**

Skills

- **Proficient** in HTML5, CSS3, JavaScript, TypeScript, and Bootstrap.
- **Experienced** with React and Angular, building **10+ projects** focused on user-centric design.
- **Skilled** in Git and GitHub, collaborating effectively with **5+ developers**.
- **Strong** in responsive design using CSS Grid and Flexbox for **3 screen sizes**.
- **Familiar** with VS Code, Chrome DevTools, and Figma for efficient design and debugging.
- **Knowledgeable** in WCAG standards, SEO, and performance optimization, achieving a **30% improvement** in site performance.
